

RBMTX-Hx2

Anywhere you go

The RBMTX-Hx2 is a small modem made for wireless m2m applications. It is a compact device with all the standard interfaces and Dual SIM option powered by Telit HE910 embedded engine. Supporting GPRS/EDGE/UMTS/HSPA+ it is dedicated for users seeking for easy and fast mobile Internet access. Internet connection is easily available and configurable via internet browser without any need of installing software or drivers for the device.

RBMTX-Hx2 is a universal solution for all low-volume M2M and mobile data applications including metering, traffic systems, transportation and logistics, security, vending machines and facility management.

- GSM/GPRS/EDGE/UMTS/HSPA+
- LAN
- Compact size
- Plug & Play
- RS232/485
- External RF
- DUAL SIM
