

RBMTX-Lx1

Anywhere you go

The **RBMTX-Lx1** is a small modem made for wireless m2m applications. It is a compact device with all the standard interfaces and configurable GPIOs powered by Telit LE910 embedded engine. Supporting GPRS/EDGE/UMTS/HSPA+/LTE it is dedicated for users seeking for easy and the fastest mobile Internet access. Internet connection is easily available and configurable via internet browser without any need of installing software or drivers for the device.

RBMTX-Lx1 is a universal solution for all low-volume M2M and mobile data applications including metering, traffic systems, transportation and logistics, security, vending machines and facility management.

- GSM/GPRS/EDGE/UMTS /HSPA+/LTE
- LAN
- Compact size
- Plug & Play
- RS232/485
- External RF
