DASHBOARD VISUALIZATION FROM THE WEB

EticDISPLAY is dedicated to managers of industrial equipment and processes.

This software option of RAS or IPL boxes allows the collection and the display of industrial data from a client customized dashboard.

The dashboard can be consulted on the Internet from a PC, a tablet or a smartphone.
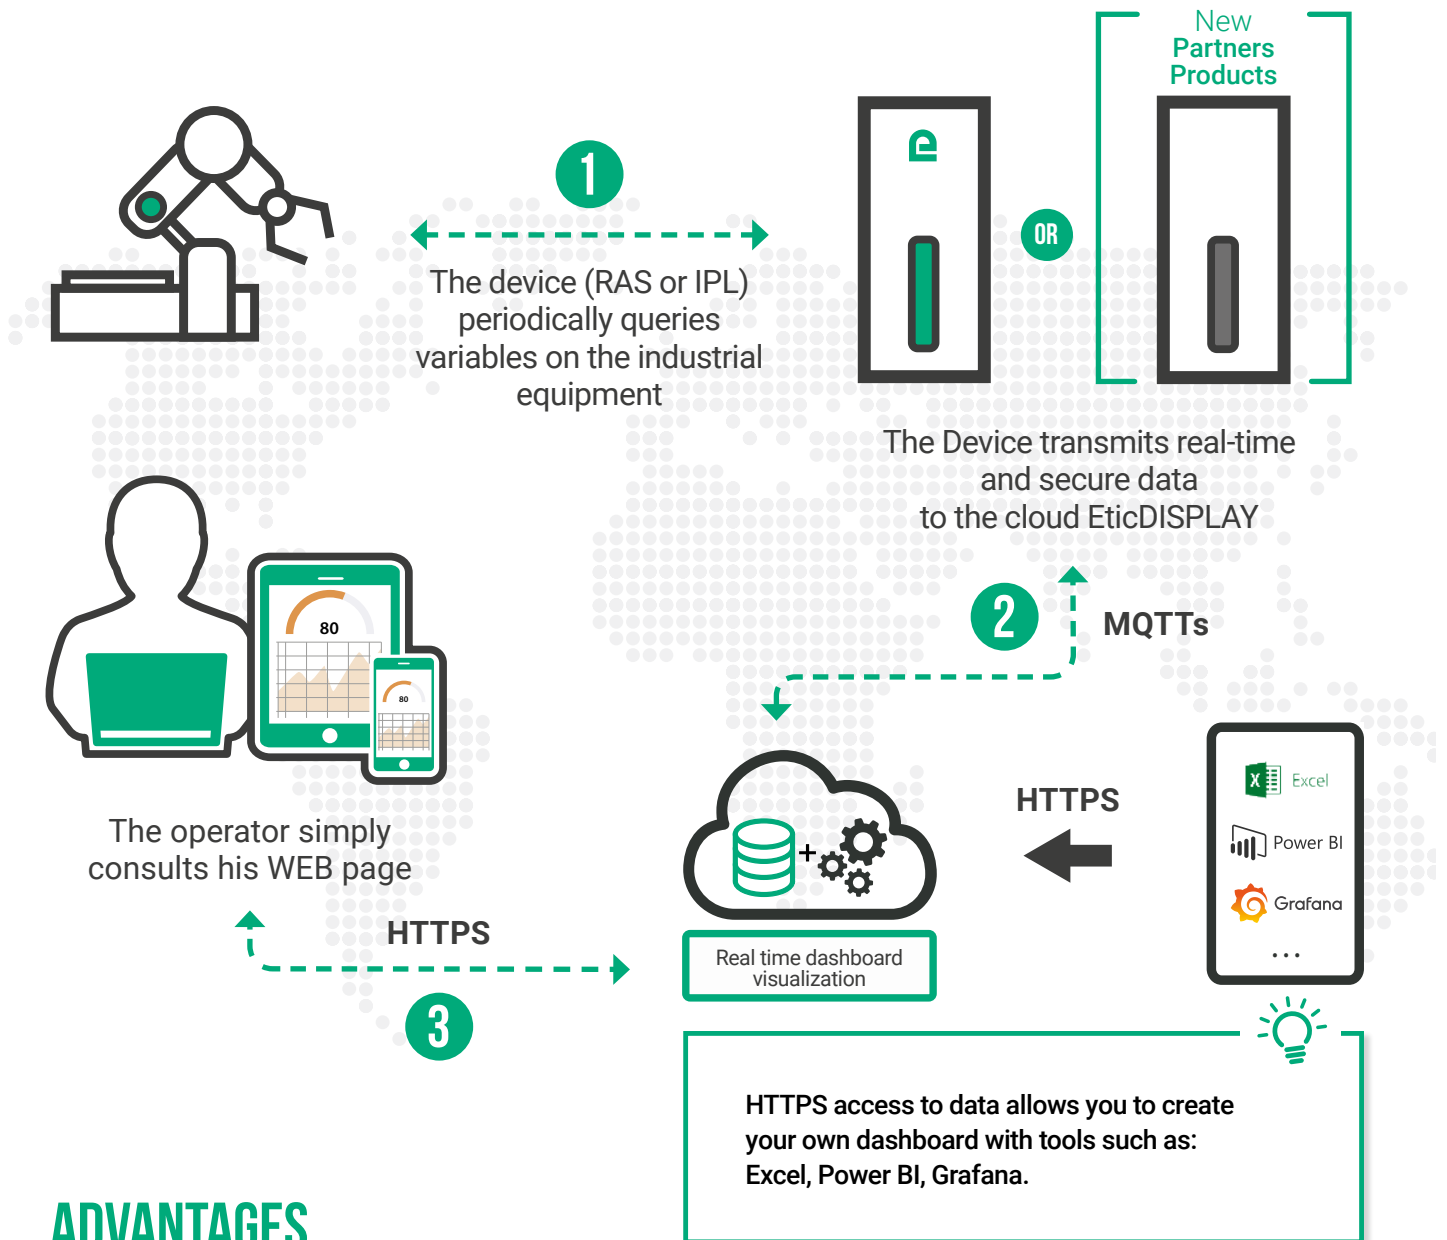

Solution EticDISPLAY

- Dashboard in the cloud
- Simple and secured access to the dashboard (HTTPS)
- Simple and fast creation of the dashboard
- Available on RAS and IPL devices
- Compatible with partner products

The operator simply consults his WEB page

HTTPS

3

HTTPS

Real time dashboard visualization

Excel
Power BI
Grafana
. . .

HTTPS access to data allows you to create your own dashboard with tools such as: Excel, Power BI, Grafana.

ADVANTAGES

Solution available on RAS & IPL

This software feature can be installed on any Machine Access Box (RAS) or Industrial Routers (IPL) commercialized by Etic Telecom.

Solution compatible with the remote maintenance and monitoring M2Me

EticDisplay together with the M2Me solution offers a comprehensive, secured and simple monitoring solution with dashboard vizualisation and remote maintenance of the industrial process.

Solution compatible with partner products

EticDISPLAY is compatible with gateways partnering with Etic Telecom.

Creation of customized WEB pages

On the basis of specifications, Etic Telecom produces a dashboard for visualizing industrial data. Etic telecom also provides the toolbox allowing the partner to create his own WEB pages.

Consulting the dashboard without specific tools

Without the installation of additional software on your terminal (PC, smartphone, tablet PC), you can securely access your dashboard using a browser (Chrome, Firefox, Edge, Safari, ...).

THE DATA STORAGE OFFER

Etic Telecom offers **data storage space** for the long-term consultation of the dashboard.

Depending on the use case, the volume of data to be stored can be large. Etic Telcom has therefore created **3 offers or «Data Pack»** to meet your different needs.

CHOICE OF THE PACK TO INSTALL ON THE BOX		SUBSCRIPTION DURATION	
		1 year	5 years
QUANTITY OF POINTS STORED PER BOX	0,5 million points	Pack data **standard** 1	Pack data **standard** 5
	5 millions points	Pack data **silver** 1	Pack data **silver** 5
	50 millions points	Pack data **gold** 1	Pack data **gold** 5

Example: a box collects the values of 5 variables every 10 minutes. One year of historization costs 0.26 million points.

> The offers are also available for partner products.
> A partner pack (standard, silver, gold) must
> be chosen.

ETICDISPLAY SOLUTION: INSTRUCTIONS FOR USE

1 **Step 1: creation of the dashboard in the Cloud**

➜ **My EticDISPLAY offer:**
Etic Telecom creates from specifications your personalized dashboard.

➜ **Starterkit EticDISPLAY offer:**
Etic Telecom provides a starter kit, a real toolbox allowing you to create your own dashboard.

2 **Step 2: choice of the data pack adapted to the need**

You determine your data storage need and opt for a standard, silver or gold pack.

3 **Step 3: you renew your data pack**

You are notified shortly before the deadline that the data subscription of your box ends. You go back to step 2.
